To enter an earnings distribution change you will go HRWEB> Special Update >Earnings Distribution.

Search for the employee using the name, national ID (SSN), or the 7-digit HR/Payroll system employee ID and click the search button:

The top half of the page will display the current earnings information:

Updating Earnings Distribution

1) Enter the effective date in this format: MM/DD/YYYY or use the calendar icon to select a date.

If a transaction exists in the HR database with a date later than the one selected, this is the error message you will see:

Do not submit an E-HRAF, but contact Data Services for assistance.

2) If you are changing the distribution to "Default to Dept Account", select "Yes". You will be asked,

Selecting this button will clear all distribution lines below. Do you want to proceed? When you select "OK" you will see the following:

- 10) Don't forget to click the save button!
- 11) Your update will be viewable instantly via the job summary view.

NOTE: You may enter a future effective date as long as it is no more than 30 days out from the current date.

Retroactive Changes to Account Data

Enter the effective date in this format MM/DD/YYYY or use the calendar button to select. In Emory HR Web, you may enter a retroactive account change as long as the effective date is not earlier than the effective date of the last data change on the employee record (check Job Summary to be sure).

If the effective date is earlier than the last entry on the employee record, you will not be able to save the entry online. You must submit the change via Human Resources Action Form.

If the effective date you enter is more than 30 days before or after the entry date, but, is allowable for entry, you will get this warning message:

Microsof	t Internet Explorer
⚠	Warning date out of range. (15,9) The date entered is either more than 30 days in the past or 30 days in the future. This is not normally true for this date. Either acknowledge that the date is OK, or correct the entered date.
	ОК

If you get this message, click the OK button and continue. If the account update was retroactive, you will need to do a Retroactive Salary Transfer with the Controller's Office to transfer the funds as intended.

Make sure your percents add up to 100% and click the save button!

Once you have saved the entry, you will be able to see the changes.

If you have made a mistake, contact Data Services immediately. You do not have correction mode!
