Ratings are provided by Morningstar, Inc. based on a scale of one star (lowest rank) to five stars (highest rank). Morningstar has not rated some of the funds. Newer funds are not rated until a history is developed. The rating describes what has happened over the last three, five and ten-year period and is designed to reflect how a fund performed based on the risks in the fund and the performance compared to a peer universe. The rating does not predict the future performance of the fund. Morningstar ratings should not be the sole factor in making an investment decision.
