

# Prescribing Guide for Emory Members

**EMORY**  
UNIVERSITY

**Effective July 1, 2025**

The 2025 Prescribing Guide with Advanced Control Specialty Formulary® is intended to be a useful reference and informational tool for medical providers. It is intended to assist practitioners in selecting clinically appropriate and cost-effective products for their patients.

## INTRODUCTION

We are pleased to provide the 2025 **Prescribing Guide with Advanced Control Specialty Formulary**® as a useful reference and informational tool. The **Prescribing Guide with Advanced Control Specialty Formulary**® can assist practitioners in selecting clinically appropriate and cost-effective products for their patients.

The drugs represented have been reviewed by a National Pharmacy and Therapeutics (P&T) Committee and are approved for inclusion. The **Prescribing Guide with Advanced Control Specialty Formulary**® is reflective of current medical practice as of the date of review.

The information contained in this **Prescribing Guide with Advanced Control Specialty Formulary**® is provided solely for the convenience of medical providers. We do not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. This **Prescribing Guide with Advanced Control Specialty Formulary**® is not intended to be a substitute for the knowledge, expertise, skill and judgment of the medical provider in his or her choice of prescription drugs. All the information in the **Prescribing Guide with Advanced Control Specialty Formulary**® is provided as a reference for drug therapy selection. Specific drug selection for an individual patient rests solely with the prescriber. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable.

We assume no responsibility for the actions or omissions of any medical provider based upon reliance, in whole or in part, on the information contained herein. The medical provider should consult the drug manufacturer's product literature or standard references for more detailed information.

National guidelines can be found on the National Guideline Clearinghouse site at <https://www.ahrq.gov/gam/>.

## PLAN SUMMARY

This chart explains what your plan covers and what your share of prescription costs will be. You can also find it on our website.

### HSA Plan

Welcome to your new prescription benefit administered by CVS/caremark. Your prescription benefit is designed to bring you quality pharmacy care that will help you save money.

Following is a brief summary of your prescription benefits. CVS/caremark and Emory are confident you will find value with your new prescription benefit program.

Your plan is based on a combined deductible of medical and prescription claims. The deductible is the total "out of pocket" spending required by you before prescription benefits are paid. Your annual deductible is \$1,550 for an individual or \$3,100 for a family. Until this

deductible amount is met, you will pay 100 percent for your prescriptions.

	<b>The Pharmacy at Emory, and Emory Saint Joseph's Apothecary</b>	<b>CVS/caremark Retail Pharmacy Network</b> For short-term medications (Up to a 30-day supply)	<b>Maintenance Choice<sup>®</sup> CVS/caremark Mail Service Pharmacy or CVS/pharmacy</b> For long-term medications (Up to a 90-day supply)

Members acknowledge that by directing their prescribers, or their agents, to send prescriptions to CVS Caremark they are also providing express consent for CVS Caremark to provide prescription Services to those members for those prescriptions. Members acknowledge that by directing their Prescribers, or their agents, to send prescriptions to CVS Caremark or CVS Specialty Pharmacy, they are Also providing express consent for CVS Caremark or CVS Specialty to utilize any affiliated pharmacies to Process their prescriptions. Plan Member Rights and Responsibilities can be found at Caremark.com.

### PREFACE

The ***Prescribing Guide with Advanced Control Specialty Formulary***<sup>®</sup> is organized by sections. Each section is divided by therapeutic drug class primarily defined by mechanism of action.

Individual pharmacy benefit plans may impose restrictions or not reimburse some products. In addition, over-the-counter (OTC) products, with the exception of insulin and diabetes monitoring products, are usually not included in the pharmacy benefit. Pharmacy law requires a valid prescription for purchase of needles and syringes in certain states. OTC products are listed for informational purposes. If covered in the pharmacy benefit, OTC products require a valid prescription.

Drugs represented in the ***Prescribing Guide with Advanced Control Specialty Formulary***<sup>®</sup> may have varying cost to the plan member. Prescription benefit plan may alter coverage of certain products or vary copay amounts based on the condition being treated. Generic medications typically are available at the lowest cost, brand-name medications on the ***Prescribing Guide with Advanced Control Specialty Formulary***<sup>®</sup> will generally cost more than generics, and brand-name medications not on the list will generally cost the most.

### PHARMACY AND THERAPEUTICS (P&T) COMMITTEE

The services of an independent National Pharmacy and Therapeutics Committee ("P&T Committee") are utilized to approve clinically appropriate drug therapies. The P&T Committee is an external advisory body of clinical professionals from across the United States. The P&T Committee's voting members include physicians, pharmacists, a pharmacoeconomist and a medical ethicist, all of whom have a broad background of clinical and academic expertise regarding prescription drugs. Employees with significant clinical expertise are invited to meet with the P&T Committee, but no CVS Caremark<sup>®</sup> employee may vote on issues before the P&T

Committee. Voting members of the P&T Committee must disclose any financial relationship or conflicts of interest with any pharmaceutical manufacturers.

## **GENERIC SUBSTITUTION**

Generic substitution is a pharmacy action whereby a generic version is dispensed rather than a prescribed brand-name product.

One way to reduce out-of-pocket cost is by requesting a generic drug. Generic drugs are usually priced lower than their brand-name equivalents. Prescription generic drugs are:

- Approved by the U.S. Food and Drug Administration for safety and effectiveness and are manufactured under the same strict standards that apply to brand-name drugs.
- Tested in humans to assure the generic is absorbed into the bloodstream in a similar rate and extent compared to the brand-name drug. Generics may be different from the brand in size, color, and inactive ingredients, but this does not alter their effectiveness or ability to be absorbed just like the brand-name drug.
- Manufactured in the same strength and dosage form as the brand-name drugs.

When a generic drug is substituted for a brand-name drug, you can expect the generic to produce the same clinical effect and safety profile as the brand-name drug.

## **LEGEND**

<b>Abbreviation</b>	<b>Description</b>
OTC	Over the counter
delayed-rel	Delayed-release (also known as enteric-coated), refer to the reference brand listed for clarification
ext-rel	Extended-release (also known as sustained-release), refer to the reference brand listed for clarification
