

Emory Health Plan Medication List

January 2027

About this guide

The Emory Health Plan Medication List is a guide to prescription medications that may be covered under the Emory Health Plan. This list is also known as a formulary.

The medication list is reviewed and updated regularly and is subject to change. Your actual coverage and cost may depend on your specific benefit plan, the medication prescribed, the dosage, the quantity, the pharmacy used, and whether any coverage requirements apply.

This guide can help you and your doctor or prescriber identify covered and preferred medication options. When there are multiple clinically appropriate options, choosing a preferred medication may help lower your out-of-pocket costs.

For the most current information about your prescription benefits, medication coverage, or expected cost, sign in to your pharmacy benefit account or call the number on your member ID card.

How to read this guide

Generics drugs are shown in lower-case **boldface** type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand.

Brand prescription drugs are shown in capital letters followed by the generic name.

The medication list uses abbreviations to show how each drug is categorized under the prescription drug benefit. A drug's tier may affect what you pay when you fill a prescription:

- 0 = Tier 0 Preventive Medications
- 1 = Tier 1 Generic Medications
- 2 = Tier 2 Preferred Brand Medications
- 3 = Tier 3 Non-Preferred Brand Medications
- 4 = Tier 4 Lifestyle Medications
- 5 = Tier 5 Select Medications
- NC = Non-Covered Medications

Preferred medications generally have lower out-of-pocket costs than non-preferred medications. Non-covered medications are not covered under the pharmacy benefit unless an exception or other plan rule applies. If your medication is listed as non-covered, talk with your doctor or prescriber about whether a covered alternative may be clinically appropriate for you.

Coverage considerations

Most prescription drug benefit plans provide coverage for up to a 30-day supply of medication, with some exceptions. Your plan may also provide coverage for up to a 90-day supply of certain maintenance medications. Maintenance medications are drugs you may take on an ongoing basis for chronic or long-term conditions, such as high blood pressure, diabetes, or high cholesterol.

Some medications, products, or drug categories may not be covered under the pharmacy benefit. Examples may include certain medical devices and supplies, cosmetic medications, non-FDA-approved products, digital therapeutic products, certain compounded or repackaged medications, and prescription medications that have an over-the-counter alternative. Some state or federal requirements may apply. Please review your benefit plan materials for detailed information about your pharmacy benefits.

If a product is not covered, your pharmacist, doctor, or prescriber may be able to help identify covered alternatives when available. You can also sign in to your pharmacy benefit account or call Prime Therapeutics Emory Health Plan Member Services at 877-427-9114 for coverage and cost information.

Prior Authorization

Certain medications require prior authorization (PA) before they can be covered. This means your doctor or prescriber must provide information for review to determine whether coverage criteria are met. Coverage may be approved if the medication meets the plan's requirements. If a PA is required for a drug listed in this document, it will be noted next to the drug with a dot under the PA column.

Step Therapy

For medications with step therapy (ST) requirements, coverage may be available only after you try another clinically appropriate medication first. Step therapy is generally used when another medication may be a safe and effective option for treating the same or a similar condition. In some cases, step therapy may also help identify covered medication options that could lower costs for you or the plan. If a ST is required for a drug listed in this document, it will be noted next to the drug with a dot under the ST column.

Dispensing Limits

A dispensing limit (DL), also called a quantity limit, is the maximum amount of a medication that may be dispensed or covered within a specific period. Dispensing limits help support safe and appropriate use, including use consistent with Food and Drug Administration guidelines, recommended dosing, or other clinical considerations. If a dispensing limit applies, it will be noted next to the drug with a dot under the DL column.

Important Note About Tier Zero Coverage

Tier Zero coverage may vary by medical plan. The standard HSA and POS plans include a broader Tier Zero prescription drug list for certain preventive and chronic-condition medications. The HDHP Plan uses an ACA preventive prescription list, which means only certain ACA-required preventive medications and products are covered at \$0.

Specialty Drugs

Specialty medications are often used to treat complex, chronic, rare, or high-cost conditions. These medications may require special handling, monitoring, education, or pharmacy support. Depending on your plan, specialty medications may need to be filled through a designated specialty pharmacy.

Lifestyle and Select Tier Medications

Certain medications or medication categories may have special coverage or cost-sharing rules. For example, some lifestyle medications may have different refill limits, coverage rules, or member costs than other covered medications.

Some medications may also be placed on a select tier based on the medication, drug category, or condition being treated. This may affect how the medication is covered and what you pay.

For the most current information about whether a medication is covered, which tier applies, and what your expected cost may be, sign in to your pharmacy benefit account or call the number on your member ID card.

Non-Covered Drug

Certain medications are not covered under the pharmacy benefit. If a medication is listed as non-covered (NC) and you fill the prescription, you may be responsible for the full cost.

If your medication is listed as non-covered, talk with your doctor or prescriber about whether a covered or preferred alternative may be clinically appropriate for you. If a medication is non-covered, it will be listed as NC in the Tier Designation column.

Notice

The Emory Health Plan Medication List is intended to provide a guide to prescription medication coverage. It may not include every medication covered under the pharmacy benefit and does not guarantee coverage for any specific medication, dosage, quantity, or pharmacy. It is not intended to replace medical advice.

If your medication is not listed, it does not necessarily mean the medication is not covered. For the most current information about medication coverage, tier placement, coverage requirements, or expected cost, sign in to your pharmacy benefit account or call Prime Therapeutics Emory Health Plan Member Services at 877-427-9114.

Decisions about whether a prescription medication is needed, which medication is appropriate, and what dosage should be used should be made by you and your doctor or prescriber based on your individual health needs.
