Step-By-Step Brainier/Open Sesame User Guide

Introduction to Brainier and Open Sesame

Brainier Learning Management System (LMS) is our new training location, replacing Emory Learning Management Systems (ELMS). It will be launched in two phases—the first launch will provide courses from Open Sesame, and the second phase will contain the rest of the training that you're used to seeing in ELMS.

Open Sesame is a training content vendor, with eLearning available in different formats on a variety of topics, such as business skills, leadership, compliance, wellness, DEI, and software and web services.

Courses from Open Sesame are searchable through Brainier. The purpose of this user guide is to demonstrate step-by-step how to log in to Brainier, search for Open Sesame courses, and begin training.

Requesting Additional Training Content
