

## ***Renee Wilder***

Immunizations Compliance Coordinator, Student Health Services,  
Campus Life

### **Tell us a little about the work you've done at Emory throughout your career.**

I started as a temp secretary at the Emory Clinic in 1985 and moved to a full-time position at Emory University Hospital in 1990 to work in the Histocompatibility lab and then went to Yerkes in the Environmental Health & Safety Office. I now work in Student Health Services as an Immunization Compliance Coordinator.

### **What are some of your favorite memories of your time at Emory?**

I loved working with the staff and with Dr. David O'Brien in the Urology Department at the Emory Clinic. Working at Yerkes was always interesting, and I loved my job there. My current role in Student Health Services is very active!

### **What are some of the most significant changes you have witnessed over the course of your career?**

The development of the landscape is awesome. It shows growth and how many satellite offices there are now. It is amazing!

### **Is there anything you miss from "back in the day"?**

The big outdoor Staff Fest with the hospital, university, and Grady.

### **What do you hope for the future of Emory?**

Continued growth in cutting edge technology and medicine and to stay close like a family.

### **Anything else you would like to share?**

Thank you to the Emory community for the many years of education, growth, and friendship received.
