

# Blood & Body Fluid Post Exposure Process

Immediately clean the wound with soap and water, flush exposed oral/nasal mucosa with water for 15 minutes and use eyewash stations as necessary.

(EJCH, EDH, EHH and ELTAC)

## Healthcare Worker Responsibilities

Notify Administrative Nursing Supervisor (ANS) and provide source patient information:  
**First/last names, DOB & MRN**

Emory employees to complete incident report in HOME. To access HOME, log in to e-Vantage, select Self-Service, then the Workplace Health file.

Non-Emory employees are to contact OIM during business hours:  
**404-686-8587, option 4**

HCW should expect to receive rapid HIV result from ANS within 2 hours of sample being received by the lab.

**Questions?**  
Page on-call OIM Advance Practice Provider (APP) at 404-686-5500 ID# 50464

## Administrative Nursing Supervisor Responsibilities

ANS coordinates source patient testing, including consent for HIV testing, ensuring blood is available & ordering BBP exposure labs.

ANS provides rapid HIV results to HCW as soon as possible.

If **source patient is HIV negative**, HCW should report to OIM the next business day for evaluation / baseline testing.

If **source patient HIV (+) or unknown**, the ANS will page the on-call APP for all HIV (+) or an unknown source. HCW will be instructed by ANS to report to either OIM (during business hours) or the ED for consultation with hospital Epidemiologist and possible medication initiation. Baseline testing will be performed on the HCW at OIM the next business day.
