If a worker is injured at work, the employer shall pay medical and rehabilitation expenses within the limits of the law. In some cases the employer will also pay a part of the worker's lost wages. Work injuries and occupational diseases should be reported in writing whenever possible. The worker may lose the right to receive compensation if an accident is not reported within 30 days.

The minimum panel shall consist of at least six physicians, including an orthopedic surgeon with no more than two physicians from industrial clinics. Further, this panel shall include one minority physician whenever feasible. (See Rule 201 for definition of minority physician). One change of doctor, from the list, may be made without permission.
